Download several images at a time

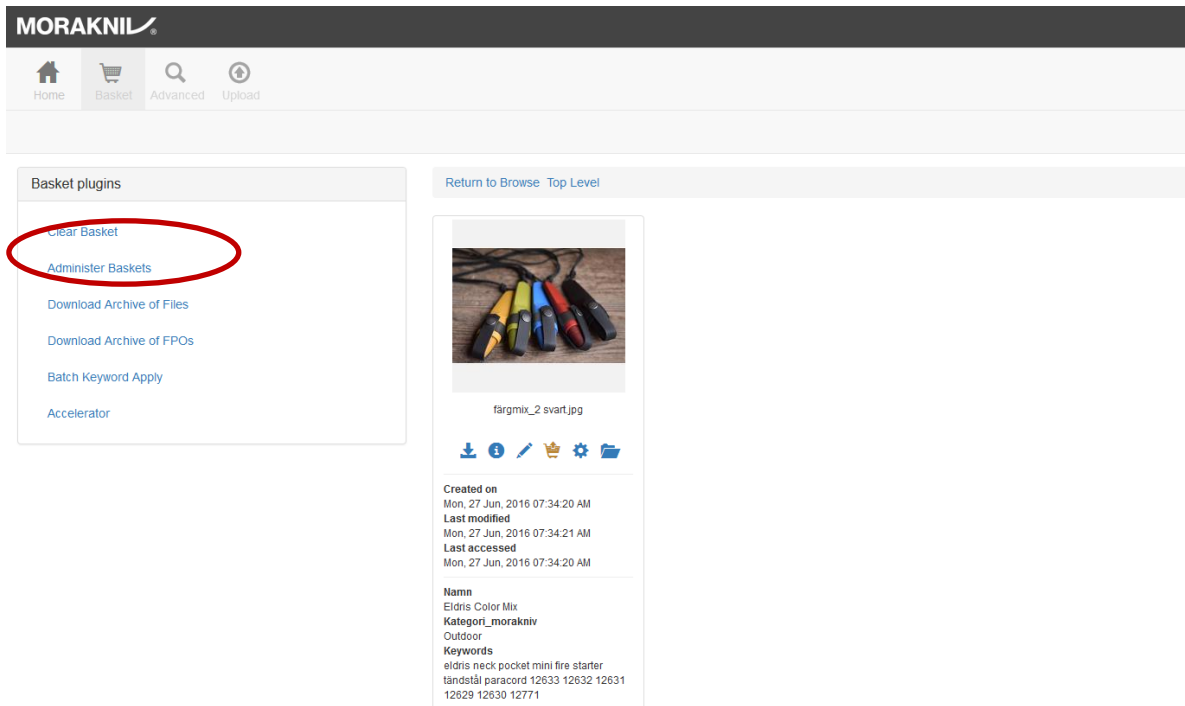

1. Open each image and click on the cart symbol.

2. Repeat this for all images you wish to download.
3. Chose the large cart icon at the top menu.

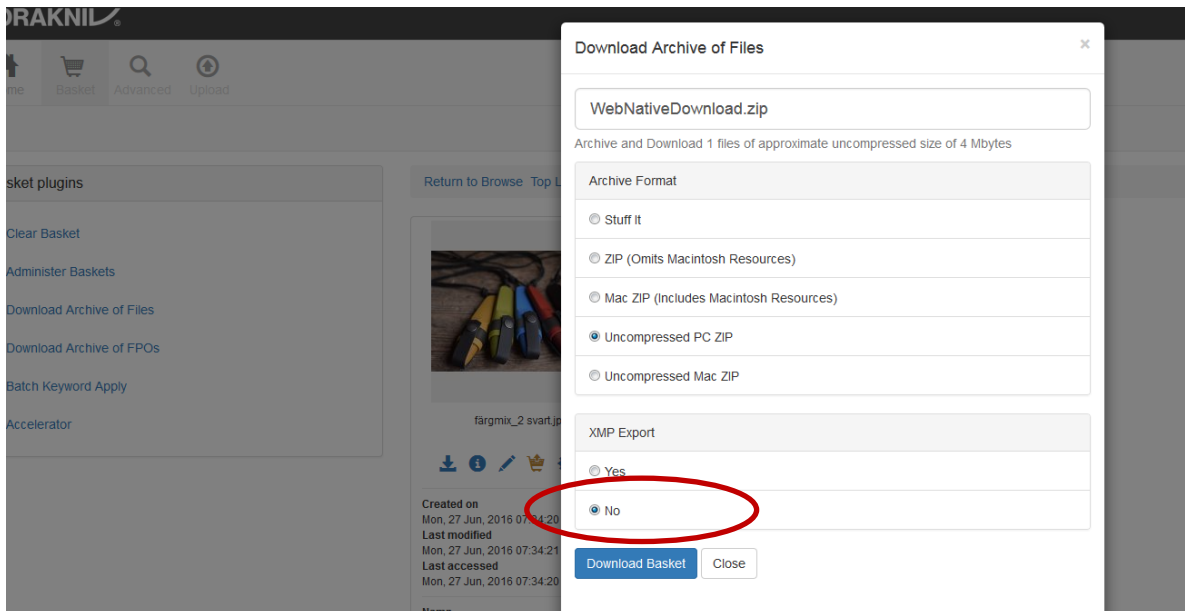

4. Choose “Download Archive of Files”.

The screenshot shows the MORAKNIL website interface. At the top, there is a navigation bar with icons for Home, Basket, Advanced, and Upload. Below this, a 'Basket plugins' menu is displayed on the left, with 'Download Archive of Files' highlighted. To the right, a product card for 'färgmix_2 svart.jpg' is visible, showing an image of three multi-colored paracord tools. The product details include creation and modification dates, name, category, and keywords.

5. Choose your preferred format and then “Download Basket”

The screenshot shows the MORAKNIL website interface with a 'Download Archive of Files' dialog box open. The dialog box contains a text input field with 'WebNativeDownload.zip', a description of the archive, and two sections for format selection. The 'Archive Format' section has radio buttons for 'Stuff It', 'ZIP (Omits Macintosh Resources)', 'Mac ZIP (Includes Macintosh Resources)', 'Uncompressed PC ZIP' (which is selected), and 'Uncompressed Mac ZIP'. The 'XMP Export' section has radio buttons for 'Yes' and 'No' (which is selected). At the bottom of the dialog, there are 'Download Basket' and 'Close' buttons.
